

SHREE GANESHA ENTERPRISES

Building a Stronger Future with Reliable Industrial Solutions

Welcome to Shree Ganesha Enterprises A trusted leader in industrial manufacturing and supply chain solutions, located in the industrial hub of MIDC Ambad, Nashik. With over 7 years of expertise, we specialize in delivering high-performance industrial products ranging from precision tapes to heavy-duty machinery. We are your "One-Stop Industrial Solution Partner," committed to quality, durability, and competitive pricing.

OUR SERVICES

Tape

Fiber Glass Tape

Woven from high-strength glass fibers, this tape offers excellent heat resistance, high tensile strength, and electrical insulation.

Polyester Tape

Made with strong PET film, it provides superior electrical insulation, chemical resistance, and durability. Commonly used in electronics, motors, and transformers.

Tissue Tape

Woven from high-strength glass fibers, this tape offers excellent heat resistance, high tensile strength, and electrical insulation.

Kapton Tape

Polyimide film tape with exceptional high-temperature resistance (-73°C to +260°C). Widely used in electronics, 3D printing, PCB masking, and aerospace industries.

Non-Adhesive Tape

A pressure-sensitive, self-bonding tape used for wrapping cables, sealing, and insulation. Provides flexibility and moisture resistance without any adhesive residue.

Insulation Tape

PVC electrical tape with strong adhesion, flame-retardant properties, and high dielectric strength. Used for wire harnessing, electrical insulation.

BOPP Tape

Biaxially Oriented Polypropylene (BOPP) packaging tape with strong adhesive and tear resistance. Ideal for carton sealing, shipping, and heavy-duty packaging.

Masking Tape

Masking tape is a versatile adhesive tape made of thin, easy-to-tear paper and a pressure-sensitive adhesive.

VBH Tape

VBH (Very High Bond) tape is a double-sided acrylic foam tape engineered for heavy-duty bonding.

Industrial Packaging

All Types of Tapes

Strong adhesive tapes for sealing, bundling, and securing packages in various industrial applications.

Bubble Rolls

Protective bubble rolls to cushion products during transit, reducing damage risk.

Stretch Film Rolls

High-quality stretch films for pallet wrapping and load stability.

Strapping Tools

Durable tools for securing straps around packages and pallets.

Cable Ties

Reliable cable ties for bundling wires, cables, and packaging materials.

MS-PP-PET Straps

Heavy-duty straps for industrial packaging and transportation needs.

Pneumatic Fittings and Tools

We provide durable and high-performance pneumatic fittings and tools designed for industrial, automotive, and workshop applications. Our products are built for reliability, efficiency, and precision, ensuring smooth operations in compressed air systems and pneumatic machinery.
